

QUICK-START GUIDE

Rat Zapper *ULTRA*

Open the Battery Compartment:

The **Rat Zapper *Ultra*** battery compartment is located on the top of the unit. To open, pull the securing tab back then lift the battery compartment door. Properly install 4 “D” batteries in the battery holder and re-secure the lid to the battery compartment.

Important Information: The performance of your **Rat Zapper *Ultra*** will depend upon the:

1. Quality of batteries;
2. Amount of time your **Rat Zapper *Ultra*** is turned on;
3. Number of rodents killed;
4. Cleanliness of the unit floor.

Rating	Battery Type	Expected Use
BEST	Duracell Ultras with M3 Technology or Energizer E2 Titanium	These batteries will provide increased battery life.
GOOD	Alkaline Batteries	These batteries should provide approximately 40 kills or 90 days of standby power.
NO!	Heavy Duty, Super Heavy Duty, Extra Heavy Duty, Carbon Zinc, non alkaline	Are <u>not</u> recommended for the Rat Zapper <i>Ultra</i>
NO!	NiCad (Nickel Cadmium) or NMH Rechargeables	Are <u>not</u> recommended for the Rat Zapper <i>Ultra</i>

What do the green and red lights on the Rat Zapper *Ultra* mean?

GREEN LIGHT:

Battery Check- When you turn the **Rat Zapper *Ultra*** power switch to the **ON** position, the green light will blink once, then turn off. This tells you the battery quality is good. If the green light does not turn on at all, replace the batteries. (See chart above for Recommended Batteries.)

RED LIGHT:

Rodent Check- The **Rat Zapper *Ultra*** red kills indicator light will blink **repeatedly** when you've killed a rodent. (*NOTE: A blinking red light with no rodent inside may indicate moisture has caused a “false trip” of the unit or that the unit requires cleaning. See reverse side of this sheet or “Rodents 101” for instructions.*)

INSTRUCTIONS FOR CLEANING (Remove batteries first!)

When dust, dirt or other contaminants accumulate in the **Rat Zapper Ultra**, you will need to clean the unit; otherwise it may trigger a false trip, causing the red light to blink repeatedly when you turn it on.

1. Remove batteries before cleaning to insure safety.
2. Obtain an inexpensive, thin aluminum pan large enough in width and length to accommodate the **Rat Zapper Ultra**.
3. Fill the pan with approximately 1 inch of warm/hot water, a tablespoon of vinegar and an ample amount of dish detergent. Set the **Rat Zapper Ultra** in the pan and let it soak for approximately 1 hour (to loosen debris.)
4. Using a soft bristle or bottlebrush commonly found in the cookware section of your local supermarket, gently brush the bottom of your **Rat Zapper Ultra**.
5. To rinse, carefully allow a gentle stream of fresh water to flow over the cleaned bottom surface of the **Rat Zapper Ultra**. Do not spray the unit out or allow moisture to intrude into the electronics that are housed at the top of the unit as this may cause the electronics to short out and impair the unit's performance.
6. After cleaning and rinsing the bottom of the **Rat Zapper Ultra** thoroughly, place it with the open side face down to allow the water to drain and air dry completely (do not use air compressor) before putting it back into service (about 2 -3 hours).

RECOMMENDATIONS FOR OUTDOOR USE

TO MINIMIZE THE CHANCE OF FALSE TRIPS AND DAMAGE TO THE ELECTRONICS

- For continuous use outdoors purchase a **Rat Zapper Rat's Nest** (Our PVC **Rat's Nest** housing is designed to protect your **Rat Zapper Ultra** from water and other elements).
- A temporary solution for the outdoor use of the **Rat Zapper Ultra** is to place it under a weatherproof-tarp, or cover it with a plastic freezer bag, leaving only the entry uncovered. Secure the plastic bag to the **Rat Zapper Ultra** with a rubber band.

(888) DEAD-RAT

For LIVE Tech Support

Money Back Guarantee (with proof of purchase)

The Rat Zapper Ultra comes with a 30-Day, money back guarantee that it will work. However, to meet our guarantee requirements, proof of purchase is necessary AND you must speak with our Customer Service Department at **(888) DEAD-RAT** prior to returning the unit.
